EDUCATION

Can Tho University | 08/2019
Software Engineering

SKILLS

Web Development

- HTML, CSS, SCSS, JavaScript
- ReactJS
- Styled Components

Version Control

- Git

Programming Paradigms

- Knowledge of OOP, MVC

Tools

- Figma

Soft-skills

- Time Management
- Independent Work
- Teamwork

INTERESTS

Football
Reading book

PERSONAL PROJECT

Todo App

Mar 2023

Todo App project was built with Reactjs and local storage for data storage. The app allows users to create and manage their to-do lists, which are saved on their web browser using local storage. The main features of the app include creating, modifying, and deleting tasks.

Demo: <https://todo-app-tranphattrien.netlify.app>

Source: https://github.com/tranphattrien/ToDo_App

Feature:

- Create a new task
- Edit an existing task
- Delete a task
- Mark a task as complete
- Use Local Storage to save tasks in the browser

Technologies:

- ReactJs
- Local Storage

Recipe App

Feb 2023

Recipe App is a vanilla JavaScript application that interacts with the Forkify API to fetch and display recipe food data. The user can search for a specific recipe and save it to a favorites list via local storage. The user can easily increase or decrease servings as needed and can view detailed directions.

Demo: <https://recipe-app-tranphattrien.netlify.app>

Source: https://github.com/tranphattrien/Recipe_App

Feature:

- Search for recipes
- Update the number of servings
- Bookmark recipes
- Create my own recipes
- Use Local Storage to save user favorite recipe

Technologies:

- HTML, CSS, SCSS
- Javascript
- Local Storage
